

IN THE SPECIFICATION:

Page 6: Amend paragraph 6 as follows:

The invention further relates to a pharmaceutical preparation comprising such insulin analogues. Such a pharmaceutical preparation comprises an insulin analogue of the present invention and a pharmaceutical carrier selected from the group consisting of a zinc salt, phenol, m-cresol, glycerol, and a buffer. The present invention further extends to a method for treating diabetes in a host, comprising administering a pharmaceutical preparation of the present invention to the host, and a process for producing a pharmaceutical preparation for treating diabetes, and a process for preparing the insulin analogues.

An "Abstract of the Disclosure" on a separate page is attached hereto for insertion at the end of the instant Application. The page is to be page 17 of the instant Application.
